

Savannah

Length:	83.50m (273'95 ft)
Beam:	12.50m (41'01 ft)
Draft:	3.95m (12'96 ft)
Built:	2015
Shipyard:	Feadship
Cabins:	6
Guests Capacity:	12
Crew:	24
Speed:	14.0 Knots

Savannah

Savannah is breathtaking and cutting edge luxury charter yacht built by the Netherlands based shipyard Feadship as Lloyds classed and MCA compliant superyacht launched in 2015. Naval architecture is by the Feadship De Voogt Naval Architects with exterior design by CG Design and Feadship De Voogt, while her unique and amazing interior styling is by CG Design. Bespoke materials available nowadays are used to build and furnish this floating palace. As a result Savannah was a winner of World Superyacht Awards for the best motor displacement yacht in 2016 in category 1.300GT to 2.999GT and ShowBoats Design Awards in 2016 for the best exterior design & styling, interior layout & design and holistic design.

She boasts fantastic four decks to her guests comprised of sundeck, bridge deck, private owners deck, main deck connected with an elevator. Savannah offers amenities that are not available on any yacht built until she was delivered like an underwater lounge/cinema with a gigantic thick glass where her guests can watch below sea surface, large swimming pool based aft, beach club, Spa, Jacuzzi on the sun deck...

She accommodates up to twelve charter guests in the four double and two twin cabins. Full beam master suite is based on the upper deck and features a king sized bed with spectacular panoramic views of her cruising destination directly from the bed, large en-suite with the shower and bathtub, an office, walk in wardrobes, open air lounge in the aft. Main deck houses spacious salon with beautiful lounging areas, formal dining table in the aft and guests accommodation. VIP stateroom with a king sized bed, fold able balcony, lounge and spacious en-suite with shower and separate bathtub, while her double staterooms offers a queen sized beds and en-suites with the showers. Two twin cabins are equipped with two single beds and en-suites with the rain showers. Both twin cabins are convertible into a double cabins if required by her guests.

Savannah is an eco-friendly super yacht with an innovative propulsion used in three modes: diesel, full electric and hybrid. Her propulsion is designed by the Rolls-Royce which have developed a special tool Computational Fluid Dynamic to evaluate the performance of her propulsion. Instead of having two propellers, Savannah has one prop with variable pitch rotating in a counter clockwise direction, installed in front of an Azipull rotating in the opposite direction. Operating in the slipstream of the forward propeller, the aft propeller recovers energy from the swirl it creates. The energy created by the forward prop would otherwise be lost, making this system even more efficient than a conventional twin screw vessel. The Azipull is also used for maneuvering insted of the tunnel thruster. At slow speeds and when operating in DP mode she is maneuvered using the 360° thrust vectoring of the Azipull, whilst the forward propellers are feathered, therefore she has an excellent maneuverability.

Her clients would not even notice when the engineers switch between her operating modes without any vibration and noise. She is powered with one medium-speed Wärtsilä 9L20 diesel engine developing 2448

BHP, one Caterpillar C32 generator developing 1000 kW, two Caterpillar C18 developing 600 kW per unit and Corvus lithium-ion batteries bank with 1000 kWh capacity powered by her aux generators. Thanks to her special hull design and innovative propulsion system never used on the yacht before, Savannah reaches up to 17.0 Knots with cruising range of 6500 Nautical Miles @ 14.0 Knots supported with the stabilizers underway and at the anchor manned by a professional and an experienced marine crew of twenty-four members.

Luxury charter yacht Savannah is available for chartering in the following Caribbean destinations: Virgin Islands, Windward, Leeward, Bahamas and Cuba.

Technical specifications:

LOA: 83.50m (273'95 ft)

Beam: 12.50m (41'01 ft)

Draft: 3.95m (12'96 ft)

Flag: Cayman Islands

Built: 2015

Shipyard/Builder: Feadship

Naval architect: Feadship De Voogt

Exterior design: CG Design/Feadship De Voogt

Interior design: CG Design

Classification society: Lloyds Register

Type: Displacement motor yacht

MCA compliant: Yes

GT: 2250 T

Hull material: Steel

Superstructure: Aluminum

Decks: Teak

Engine: 1 x Wärtsilä 9L20 - 2448 BHP

Generators: 1 x Caterpillar C32 1000 kW,

2 x Caterpillar C18 600 kW

Batteries: Corvus 1000 kWh Li-ion

Fuel consumption: 500 liters/hr

Dynamic positioning system - DP

Fuel capacity: 150.000 liters

Fresh-water capacity: 40.000 liters + RO Water makers

Propulsion: 1 x CP propeller Rolls-Royce with variable pitch

Bow thruster: 1 x Azimuth Rolls-Royce

Stern: 1 x Azipull Rolls-Royce

Air condition: Entire yacht with individual cabins controls

Stabilization: Yes @ Anchor & Underway

Top speed: 17.0 Knots

Cruise speed: 14.0 Knots

Range: 6.500 (@ 14.0 Knots of cruise speed) Nautical Miles

Guests: 12

Cabins: 6 (4 x double cabins + 1 x twin cabins)

Crew: 24

WiFi - VSAT

Elevator

Cinema

Tenders and sea toys:

1 x 9.50m limousine tender
1 x 9.50m sport tender
1 x 6.0m jet tender
2 x Yamaha Stand-up jet ski
4 x Stand-up paddle boards
2 x Sea doo Spark jet ski
1 x Sea doo Wake Wave runner
2 x Jet surfs
4 x Sea bobs
2 x Laser sail boats
1 x Double kayak
2 x Single kayaks
4 x Mountain bikes
1 x Fly board
1 x Inflatable slide and trampoline
7 x Sets of diving gear (RDV diving ONLY)
Snorkeling gear
Large selection of inflatable tow-able toys
Basketball court
Beach club
Large swimming platform
Large swimming pool
Extensive GYM gear
Yoga gear
DJ gear + PlayStation
BBQ
Approved RYA water sports center
Spa, Hammam and massage room
Beach gear and games
