Speed:	10.0 Knots

80 ft CALLISTO is a fabulous Nautor Swan, maxi yacht of 80 feet built by Nautor of Finland available for yacht charter in Greece. Her rigging represents the cutting edge of racing yacht technology. This graceful hull is very fast. The aft cockpit offers comfortable seating for up to eight, while all controls are there for easy maneuvering. All hinges, hatches and fittings are flush into the deck allowing for great lounging areas topside. She accommodates six passengers in three cabins – one master cabin and two double cabins, all which have en suite baths. The master stateroom is finished in teak and features a queen-sized bed, lounge area and desk. The double cabins have a double and single bed. For recreation aboard there is TV, Video, CD and cassette stereo system in the salon, that is the full width of the yacht. Here one can relax in the leather settees and armchairs. Dining can be done in her dining area indoors or at the outdoor cockpit. All areas of the yacht are fully air-conditioned with individual controls. In the cockpit there are speakers for the stereo as well. She combines the performance of a world-class racing yacht with a degree of comfort and luxury normally only found in much larger yachts. Chef's delicious creations can be enjoyed as a casual lunch on deck at the cockpit's table, or a formal candlelight dinner in the luxurious teak and leather saloon. In the hands of an extremely capable crew, Callisto will deliver a unique sailing experience. Callisto was an Arcadian nymph who was loved by Zeus.....
